

SAHEED OKEGBEMI

Data Analyst | Excel, SQL, Power BI & Python

Abeokuta, Ogun State, Nigeria | saheedokeybemi3@gmail.com | linkedin.com/in/okegbemi-saheed | saheed-okegbemi.github.io

PROFESSIONAL SUMMARY

Data Analyst with a background in Mathematics Education and hands-on experience in data cleaning, analysis, and visualization using Excel, SQL, Power BI, and Python. Skilled at breaking down complex problems into clear, logical steps and communicating findings clearly. ALX-certified in Data Analytics and Python Programming, with a growing portfolio of self-directed data projects. Seeking an entry-level Data Analyst role to apply analytical skills to real business problems.

EDUCATION

Bachelor's Degree, Mathematics Education — University of Ibadan

2016 – 2020

SKILLS

Technical: SQL, MySQL, Data Querying, Power BI, DAX, Data Modeling, Excel, Google Sheets, Python, Pandas, NumPy, Matplotlib, Data Analysis, Data Cleaning, Data Visualization, Dashboards, Business Intelligence, Statistics

Professional: Communication, Problem Solving, Critical Thinking, Teamwork, Attention to Detail, Record Keeping

EXPERIENCE

Mathematics Teacher — Sherismal Model School

Sep 2023 – Jul 2025

- Taught mathematics to junior and senior secondary students, breaking down complex concepts into clear, structured explanations tailored to different learning levels.
- Assessed student performance through classwork, tests, and exams, using results to identify learning gaps and adjust teaching approach.
- Applied strong analytical and communication skills later transferred to interpreting and presenting data clearly.

Mathematics Tutor — Gauth (Freelance)

Sep 2021 – Aug 2025

- Solved and explained mathematics problems for students, using step-by-step logical reasoning.
- Identified individual learning gaps and adapted explanations to each student's pace and level of understanding.
- Developed strong problem-structuring and communication skills, later applied to explaining data-driven insights.

Administrative Assistant / Corps Member (NYSC) — M.A. Taiwo & Co. (Law Firm)

Aug 2022 – Jun 2023

- Performed data entry and record keeping using Excel, maintaining accuracy across client and case-related documentation.
- Organized and updated records to ensure information was accurate, complete, and easy to retrieve.
- Built foundational experience working with structured data and maintaining data integrity.

CERTIFICATIONS

- Data Analytics — ALX (Issued Apr 2026): 6-month programme covering SQL (MySQL), Power BI, Google Sheets, data cleaning, visualization, and dashboarding.
- Python Programming — ALX (Issued Jul 2026): 8-week programme covering Python, Pandas, NumPy, and Matplotlib for data analysis.
- Professional Foundations — ALX (Issued Dec 2025): Professional development skills for the digital age, including communication, teamwork, and critical thinking.
- BCG Data for Decision Makers Job Simulation — Forage (Jul 2026): Advised a hypothetical client on multi-channel ad campaign performance; analyzed customer conversion trends across channels and audiences; synthesized insights into a data-backed marketing recommendation.

PROJECTS

- Superstore Sales & Profitability Analysis (Excel) — Analyzed 10,195 orders and found that discounts above 20% consistently erased profit across customers, categories, and regions.
- Customer Shopping Behavior Analysis (Python, SQL, Power BI) — Cleaned 3,900 transactions, queried 10 business questions in SQL, and visualized in Power BI; found subscribers don't yet outspend non-subscribers and revenue is spread evenly across age groups.
- NaijaCart E-Commerce Performance Analysis (Power BI) — Modeled 15,500 orders across an 11-table relational structure powering a 3-page dashboard; found cancellations and returns made up nearly a third of orders, and full-price sales outperformed discounted ones.
